

This technical cross-section diagram illustrates the assembly of a window frame into a wall. The diagram includes the following components and callouts:

- 1**: The main wall structure, shown with diagonal hatching.
- 2**: The window frame profile, featuring a series of rounded, overlapping sections.
- 3**: The inner seal or gasket of the window frame.
- 4**: The outer seal or gasket of the window frame.
- 5**: The outermost layer of the window frame assembly.
- 6**: The weatherstripping or sealant applied to the exterior of the window frame.
- 7**: The insulation material, indicated by a pattern of small crosses, located between the wall and the frame.
- 8**: The structural support or reinforcement element, shown as a vertical plate.
- 9**: The fastener or screw used to secure the window frame to the wall.
