

The diagram illustrates the cross-section of a road surface. The layers are labeled from top to bottom: **PP-R 32 mm**, **warstwa skrypin** (chips layer), **warstwa szkieletowa** (skeleton layer), and **warstwa podłoża** (base layer). A probe is shown inserted into the **warstwa skrypin** layer, with a label indicating it is **przez ścianę na grunt** (through the wall into the ground). The probe is connected to a box labeled **czteropiętrowa powietrzna prześłona** (four-story air screen). The probe is also connected to a box labeled **czteropiętrowa powietrzna prześłona** (four-story air screen).
