

Annex No. 4 Technical and quantitative specification of self-adhesive polypropylene foils

PRODUCT GROUP	NUMBER	Raw material - general description	Material Application	Upper material - description	Outer material - weight [g/m ²]	Outer material - thickness [µm]	Glue - description	Adhesive - adhesion (according to FTM 9) [N/25mm]	Foundation - description	Backing - grammage [g/m ²]	Base - thickness [µm]	Delivery time	Roll width [mm]	Roll length [m]	number of rolls [pcs]	amount of raw material [m ²]		
SELF-ADHESIVE POLYPROPYLENE FOILS	Raw material no. 1	white polypropylene foil, with acrylic adhesive, on a silicone paper backing	For printing in flexographic and digital technology, used as a material for the production of self-adhesive labels.	White biaxially oriented polypropylene film	27	28	Permanent, acrylic	10	Silicone paper, white color	57	51					24 000,00		
												tranche no. 1	250,00	4 000	8	8 000,00		
													tranche no. 2	250,00	4 000	16	16 000,00	
	Raw material no. 2	white polypropylene foil, with acrylic adhesive, on a silicone paper backing	For printing in flexographic and digital technology, used as a material for the production of self-adhesive labels.	White biaxially oriented polypropylene film	30	40	Permanent, acrylic	10	Silicone paper, white color	57	51						26 655,00	
													tranche no. 1	135,00	3 000	21	8 505,00	
													tranche no. 1	280,00	3 000	11	9 240,00	
													tranche no. 2	135,00	3 000	22	8 910,00	
	Raw material no. 3	white polypropylene foil, with acrylic adhesive, on a silicone paper backing	For printing in flexographic and digital technology, used as a material for the production of self-adhesive labels.	White biaxially oriented polypropylene film	39	47	Permanent, acrylic	9	Silicone paper, white color	57	51							24 600,00
													tranche no. 1	410,00	4 000	5	8 200,00	
													tranche no. 2	410,00	4 000	10	16 400,00	
	Raw material no. 4	transparent polypropylene foil, with acrylic adhesive, on a silicone paper backing	For printing in flexographic and digital technology, used as a material for the production of self-adhesive labels.	Transparent biaxially oriented polypropylene film	43	47	Permanent, acrylic	9	Silicone paper, white color	57	51							5 641,00
													tranche no. 1	165,75	2 000	6	1 989,00	
													tranche no. 2	166,00	2 000	11	3 652,00	
																	4 920,00	
	Raw material no. 5	transparent polypropylene foil with a high degree of transparency, with acrylic adhesive, on a transparent PET foil backing	For printing in flexographic and digital technology, used as a material for the production of self-adhesive labels.	Transparent biaxially oriented polypropylene film with a high degree of transparency	43	47	Permanent, acrylic, highly transparent	9	Transparent PET foil	32	23			tranche no. 1	210,00	3 000	2	1 260,00
													tranche no. 2	400,00	3 000	2	2 400,00	
													tranche no. 2	210,00	3 000	2	1 260,00	
	Raw material no. 6	Silver, metallized polypropylene foil with acrylic adhesive on a siliconized paper backing	For printing in flexographic and digital technology, used as a material for the production of self-adhesive labels.	Silver, metallized, biaxially oriented polypropylene film	44	48	Permanent, acrylic	10	Silicone paper, white color	57	51							34 160,00
													tranche no. 1	185,00	2 000	31	11 470,00	
													tranche no. 2	330,00	2 000	17	11 220,00	
												tranche no. 2	185,00	2 000	31	11 470,00		
																35 964,00		
Raw material no. 7	Transparent polypropylene foil with easy-to-release acrylic adhesive on a silicone paper backing	For printing in flexographic and digital technology, used as a material for the production of self-adhesive labels.	Transparentna folia polipropylenowa zorientowana dwuoslowo	53	57	Removable, acrylic	4	Silicone paper, white color	57	51			tranche no. 1	333,00	3 000	24	23 976,00	
												tranche no. 2	333,00	3 000	12	11 988,00		
Raw material no. 8	White polypropylene foil with acrylic adhesive on a silicone paper backing	For printing in flexographic and digital technology, used as a material for the production of self-adhesive labels.	White biaxially oriented polypropylene film	40	58	Permanent, acrylic	10	Silicone paper, white color	57	51							28 560,00	
												tranche no. 1	330,00	4 000	7	9 240,00		
												tranche no. 1	345,00	4 000	7	9 660,00		
												tranche no. 2	345,00	4 000	7	9 660,00		
Raw material no. 9	Transparent polypropylene foil with rubber adhesive of very high adhesive strength, on a siliconized paper backing	For printing in flexographic and digital technology, used as a material for the production of self-adhesive labels.	Transparent biaxially oriented polypropylene film	47	52	Permanent, rubber	45	Silicone paper, white color	70	61							13 500,00	
												tranche no. 1	250,00	1 500	12	4 500,00		
												tranche no. 2	250,00	1 500	24	9 000,00		
Raw material no. 10	White polypropylene foil with a rubber adhesive of very high adhesive strength, on a siliconized paper backing	For printing in flexographic and digital technology, used as a material for the production of self-adhesive labels.	White biaxially oriented polypropylene film	44	58	Permanent, rubber	45	Silicone paper, white color	72	63							3 000,00	
												tranche no. 1	200,00	1 500	5	1 500,00		
												tranche no. 2	200,00	1 500	5	1 500,00		
																SUMA	201 000,00
