

[illegible][illegible]

Figure 1: A schematic diagram of the experimental setup for measuring the time delay of a quantum state. The diagram shows a light path starting from a source at the bottom, passing through a series of mirrors and lenses. The path is split into two branches that recombine at a detector. Key components and labels include: 'H5' (a lens), '310.00m n.p.m.' (a distance), '21.4%' (a percentage), '1.40m' (a distance), 'Dz9C' (a component), '0.00' and '0.40' (distances), 'wh5' (a component), and 'H4' (a component).
