If the rate is not published on that day, the rate from the most recently published NBP average exchange rate table shall apply.
4. The tender price shall be understood as defined in Article 3(1)(1) and (2) of the Act of 9 May 2014 on informing about prices of goods and services (Journal of Laws 2023, item 168), i.e. the price is the value expressed in monetary units which the buyer is obliged to pay the entrepreneur for goods or services; the price includes value added tax and excise duty, if applicable. The price shall also be understood to include tariff rates.
5. The tender price shall be the amount (including applicable value added tax) for performance of the subject of the contract as indicated in the **Tender Form**.

2. In the course of the evaluation of submitted tenders, the Contracting Authority may request clarifications from the Tenderer regarding the content of the submitted tender. The Contracting Authority may request Tenderers who, within the specified time limit, have failed to submit declarations or documents required in this procedure, or who have failed to submit powers of attorney, or who have submitted documents containing errors or defective powers of attorney, to submit or correct them within a specified time limit, unless, despite such submission, the tender would still be subject to rejection or it would be necessary to cancel the procedure.
3. Furthermore, the Contracting Authority shall reject a tender if it:
 - contains an **abnormally low price**, as confirmed in the clarification procedure or in the absence of submitted explanations.
If the offered price appears to be abnormally low in relation to the subject of the contract (**assessed separately for each lot**) and raises doubts as to the Contractor's ability to perform the contract (**assessed separately for each lot**) in accordance with the requirements set out in this Request for Quotation, the Contracting Authority shall request the **Contractor** to provide explanations regarding the basis for the price calculation. The Contracting Authority reserves the right to request explanations if the offered price is at least **30% lower** than the average value of tenders submitted and

deemed compliant in the procedure (**assessed separately for each lot**). In the above cases, the Contracting Authority shall request the **Tenderer** to provide a detailed explanation of the basis for calculating the offered price. The Tenderer shall be obliged to submit the explanations within **5 business days** from the date of receipt of the request from the Contracting Authority. The request shall be sent to the e-mail address indicated in the tender. If the Tenderer fails to submit explanations within the specified time limit or if the explanations demonstrate that the Tenderer intended to perform the contract or part thereof by relying on an abnormally low price, the Contracting Authority shall reject the tender. In such a case, the Tenderer shall receive information on the rejection of its tender together with a detailed justification. If a Tenderer requested to explain the basis for price calculation modifies its tender in aspects subject to evaluation under the established evaluation criteria, such a tender shall be rejected.

- A tender shall also be rejected if it

- was submitted after the deadline,
- its content is inconsistent with the content of this Request for Quotation,
- is invalid under other provisions of law, in particular the provisions of the Civil Code,
- was submitted under conditions constituting an act of unfair competition within the meaning of the Act of 16 April 1993 on Combating Unfair Competition.

4.. Tenders that do not comply with the requirements set out in this Request for Quotation shall be rejected, while the remaining tenders shall be admitted to the **points-based evaluation**.

5. The Contracting Authority shall evaluate tenders **separately for each lot**, awarding points based on the following criterion:

No.	Criterion	Weight
1.	Net price	100%

6. The maximum number of points obtainable is **100 points**.

7. The most advantageous tender shall be the tender that obtains the highest number of points under the above criterion, calculated as follows:

Tender price (net)

$$C = (C_{min} / C_{of}) \times 100$$

where:

- **C** – number of points awarded for the criterion “Tender price (net)”
- **Cmin** – the lowest net price among the submitted tenders
- **Cof** – the net price of the evaluated tender

A tender may receive a maximum of **100 points** for the criterion “Tender price (net)”.

NOTE

Consequently, the Tenderer shall not be entitled to any claims in this respect, in particular a claim for the conclusion of the contract.
5. The contract shall be concluded with the Tenderer whose tender has been selected as the most advantageous.

XVII. CANCELLATION OF THE PROCEDURE:
